

Solar Whiz

The smart way to stay cool!

- ◆ Cools your roof space
- ◆ Reduces the need for air-conditioning
- ◆ Improves the thermal performance of homes
- ◆ No running costs
- ◆ Optional thermostat control
- ◆ Whisper quiet

Solar Whiz is redefining the performance of Solar Powered Heat Extraction fans.

Solar Whiz replaces the hot air in your roof space with cooler air, allowing your roof space to remain only a few degrees above the ambient temperature. Solar Whiz effectively reduces the heat load on your ceiling increasing insulation effectiveness. The thermostat allows a pre set temperature to be programmed for a set and forget product. It's whisper quiet operation will ensure that your homes performance is at its peak through all seasons Ducting capabilities allow for localized air extraction . It's an outstanding product revolutionizing roof ventilation and air extraction.

Ideal for:

- Homes
- Warehouses
- Factories
- Schools
- Day care centres
- Offices etc.

Perfect for commercial & domestic applications.
